

DOUBLE POST HOLE DIGGER

It can dig at double the speed of single post hole digger and the mutual spacing between two holes will be uniform. Lately sugarcane plantation is being done with the help of double post hole digger. The sugarcane seeding along with concentrated manure in the pits lead to excellent yield year after year.

BENEFITS:

- Fastest method to dig holes as it is P.T.O. driven implement.
- 2 Holes in single time.
- It can dig holes diameter 18. OR 24.
- Replaceable auger with the same frame as per the hole diameter required.
- Made for all types of soil.
- Easy to transport.

SPECIFICATIONS

FRAME	Heavy duty 100X50mm channel frame
Length	71" (1803 mm)
Width	44" (1118 mm)
Height	54" (1370 mm)
Auger Size	18" or 24"
Gear Box	Single Speed Belt Drive
No. of Stands	3
No. of Hitch Pin	4 (28.5mm)
Fasteners	High Tensile
Auger Wall Thickness	5mm
Belt	Heavy Duty C Type (Triple)

*The weight and working data contained in the present leaflet are supplied for information only and are not binding. Specification and size can be altered as part of ongoing product modification/improvement.
